

HITCHHIKING GHOSTS MAGICAL PUMPKIN PATTERN

Pumpkin Carving Safety Tips

1. Kids! Always make sure you ask an adult to help you before carving.
2. Use a small knife with a serrated blade or a pumpkin-carving saw. Sharper isn't better when it comes to carving pumpkins.
3. Watch your hands! Be careful where you place your hand as you are cutting through the pumpkin. Always cut AWAY from the hand holding the pumpkin.
4. Use battery-powered lights instead of traditional candles to avoid dangerous fires.

Have fun and Happy Halloween!
