It's blooming with exclusive features about the festival; crisp news about *Star Wars*™ fun (can't wait to taste a Royal Guard Burger!); a visit to the newest (and most colorful) Epcot® interactive experience; a meeting with the newest *Cirque du Soleil*® performers and, as we always like to say, lots more.

The issue is garnished with facts about the ways to make the most of your Passholder benefits. The more ways you use your pass, the more ways you can save and have fun at the same time.

Now longer than ever before—visit  
March 2 through May 30, 2016.

# The experts on *pageantry* & taste

Explore the *Epcot*® International Flower & Garden Festival  
March 2 through May 30, 2016.

To better know what goes into preparing the *Epcot*® International Flower & Garden Festival, we sat down with two of its most important Cast Members—Horticulture Manager Eric Darden and Executive Chef Gregg Hannon. Over the last 20 years, Eric has sculpted breathtaking topiaries; and nearly since the introduction of Outdoor Kitchens, Chef Gregg has crafted tantalizing cuisine. Enjoy a taste of the backstage happenings below.

## What makes this festival so popular among families?

**GREGG:** For Passholder families, it's a real treat. *Epcot*® has so much to taste, see and experience. Due to the select number of festival fans, us chefs have more time to pour ourselves into the unique cuisine from planning to prep to plate.

**ERIC:** Our team really tries to push the envelope through our topiaries. This year, we were inspired by classic animation shorts, so much so that the Park entrance features Huey, Dewey and Louie working behind the scenes with Daisy. Over the last few years, we've tried to showcase new Characters.

## What goes into planning the event?

**ERIC:** We started seriously thinking about this year's event in the middle of the 2015 festival. Topiaries take time, and we need to maintain Character integrity. It can take up to five weeks of welding, three weeks of planting and four months of grow time to make a single topiary.

**GREGG:** Six months before this festival began, Chef Michael Deardorff and I researched cuisine from product all the way to authenticity. We then tested the plates with the help of six additional sous chefs, and plan to upscale to 40 more culinarians throughout the event.

## Would you tell us about one of your favorite features?

**ERIC:** Even with all of the amazing topiaries and cuisine, Tinker Bell's Butterfly House always draws a huge crowd. It's one of the most beautiful exhibits at the festival that just so happens to be alive.

## Why do you think food pairs so well with the festival?

**ERIC:** Food really tells the whole story—a seed grows into a plant that then becomes a main plate, an accompaniment, a seasoning or even a garnish. The Outdoor Kitchens make sense during the festival because there's an entire life cycle that goes into each dish. It's kind of incredible.

## How much of the event's produce is grown on premises?

**GREGG:** Throughout the festival, we partner with the Land Pavilion at *Epcot*®. Currently they provide us with just under 10 percent of all produce. Throughout the years, they've been an excellent source of winter melons, corn, tomatoes, cilantro and jalapeños—it's one of our more productive partnerships.

## As far as complexity, which festival plate has the most going on?

**GREGG:** Year in and year out, Guests request the watermelon salad. I think it's because this dish's varied flavors combine in such a unique way. With a mix of watermelon, arugula, peppers and feta tossed in a balsamic syrup, the salad easily has the most going on.

**ERIC:** You'll find some of the herbs, vegetables and ingredients used in the dish at Urban Farm Eats. This year, we're featuring a fish pond and a chicken coop. All of the herbs and vegetables we showcase can be grown in your home garden, and in some cases even on your windowsill. We grow artichoke, kale, cucumber...you name it and we probably have it.

See and taste Horticulturist Eric Darden and Chef Gregg Hannon's creations all throughout the *Epcot*® International Flower & Garden Festival.

# COME FOR THE FRESH JAMS

Weekends this spring, dig the *Garden Rocks*™ Concert Series, Friday, March 4 through Monday, May 30.

To get excited about the musical performances of the *Epcot*® International Flower & Garden Festival, we sat down with Eric Troyer of The Orchestra. Check out this brief interview for a glimpse at the talent behind one of our many exciting spring performances.

## Eric, how long have you been with The Orchestra?

**ET:** I was a founding member of ELO Part II in 1989. The Orchestra came about after the bandmates and I stopped using the name ELO Part II around 2000. The shift was relatively seamless.

## What is your musical background?

**ET:** I began classical piano training at the age of four. I played the guitar in some bands, but I've really only picked up again over the last 20 years. With The Orchestra, I lend my vocals and play keyboard.

## What is some of your proudest work outside of The Orchestra?

**ET:** When I lived in New York, I did a lot of singing. I worked with Billy Joel on "Uptown Girl," Bonnie Tyler on a few albums and John Lennon's final album. After growing up with The Beatles, it was a dream come true.

## Do you bring your family members to the festival?

**ET:** We all live in colder climates, so we love visiting during the Flower & Garden Festival. My kids are grown but our guitarist, Parthenon Huxley, brings his whole family to adventure across the four Parks.

## Are you excited for the festival this year?

**ET:** We've been performing at *Epcot*® for about four years between the Flower & Garden Festival and *Epcot*® International Food & Wine Festival. Disney World is top-notch; we love the management, crew and we absolutely adore the audience. It's going to be another great year. We all can't wait to perform!

## YOU AND THE FORCE TOGETHER SHALL BE

Experience Jedi Training: Trials of the Temple, now at *Disney's Hollywood Studios*®.

**A** long time ago, younglings were trained by Jedi Masters, the guardians of peace and justice in the Old Republic. But that was before the dark times. Before the Empire. Now, the Jedi are in hiding, and training in the ways of the Force must occur in secret at ancient Jedi temples scattered across the galaxy.

Younglings ages 4 through 12 are invited to take on the Trials of the Temple to see if they have what it takes to be a true Jedi. From instruction in Lightsaber technique to

learning to face their greatest fears of the dark side of the Force, an apprentice's journey begins with this Jedi Training experience.

The path is not without danger; the dark side is ever-present. Aspiring Jedi must remain vigilant, as their fear of the dark side manifests itself in visions of powerful villains like Darth Vader and the Inquisitor known as the Seventh Sister. With the Force awakening on both the dark side and the light, these younglings could be the galaxy's only hope.

For sign-up information, go to [DisneyWorld.com/starwars](http://DisneyWorld.com/starwars) and visit the Jedi Training page.

## THE MAGIC OF NATURE, THE WONDER OF ANIMALS.

Rivers of Light will bring new light to the night.

To say that Rivers of Light will transform Disney's Animal Kingdom® Theme Park would be an understatement. The new must-see—part of the Park's first-ever nighttime entertainment offerings—will interlace technical innovation with epic storytelling, brilliant visuals and a moving musical accompaniment.

"Rivers of Light pays homage to traditional Asian lantern festivals and this beautiful myth about the aurora borealis," Michael Jung, Creative Portfolio Executive, Walt Disney Imagineering, told us. "There's an

ancient belief that when animals passed from one world to another they danced in the sky and became these beautiful rivers of light."

### TELLING A TRADITIONAL STORY WITH CUTTING-EDGE TECHNOLOGY

Taking place on Discovery River, the show employs state-of-the-art projection effects, water screens, magical floating lanterns, live performance, music and shadow puppetry. It begins with two pairs of mystical hosts making their way to the river offering the gift of light.

Lotus lanterns open to transform into beautiful fountains. Four huge, amazing animal figures—an owl, tiger, turtle and elephant—appear and morph as their animal spirits awaken and come to life on the water screens. The hosts, the embodiment of fire and water, return and the dramatic finish includes the animals flying out and literally painting the aurora all around you in an almost dreamlike panorama.

### ANIMAL CARE ALWAYS COMES FIRST

Of course, the welfare of the animals and the integrity of the Park itself were always top of mind, including not allowing any light projections or special effects to impact the animals or their environments and not installing technical infrastructure into the lagoon area.

Michael promises that this spectacle will be like no other experienced at Walt Disney World® Resort. "And what's so exciting is that our Guests have never seen this Park at night."

Check the Disney Parks Blog for further details related to the opening of Rivers of Light, debuting this spring.

# CHOCOLATE: A DELICIOUS INDULGENCE

The Ganachery at *Disney Springs*™ gives chocolate lovers reason to rejoice.

Chocolate is one of life's timeless indulgences. And at The Landing at *Disney Springs*, you're now able to experience not only the taste of the finest chocolates available, but have an enjoyable learning experience while indulging in them as well.

The Ganachery specializes in the production of its own proprietary mixture of luscious chocolate and cream known as "ganache." But don't be expecting an ordinary 'sweet shop'. "This has nothing to do with 'candy,'" Disney Pastry Chef Stefan Riemer explains. "Rather, truly superior chocolate must be experienced much like a connoisseur would appreciate a fine wine."

## NO NEED TO FEEL INTIMIDATED BY ALL THE GRANDEUR!

Carefully trained chocolatiers are always available to answer your questions about this sophisticated chocolate boutique. And you'll thrill at the sight of one of these experts handcrafting each succulent bite, encouraging all to try one of 16 different custom-made ganaches.

The Ganachery has something to enchant every palate. The shop features both milk and dark chocolate, and all flavors fall into four categories: Spices, such as chipotle; Classic, like caramel; Trendy, such as matcha yuzu chocolate; and Fruit, including passion fruit and orange blossom.

## THE MAGIC IS IN THE MIX

The dark chocolate is a 65 percent mixture that adds a touch of vanilla. On the more exotic side, the dark chocolate with shaved Egyptian salt is sensational, as is the milk

chocolate with a dash of dark chocolate and a pinch of Sri Lankan cinnamon. Any item can be gift-wrapped in lovely decorative boxes that are themselves a work of art.

There are also custom-made chocolate bars (not made in house) celebrating beloved Disney Characters and iconic Disney destinations. You'll imagine yourself on the sands of O'ahu after savoring the pineapple and coconut of the Aulani Bar! Come on in and have a bite of heaven at The Ganachery.

## { COMING SOON TO DISNEY SPRINGS }

### Frontera Fresco

Award-winning chef Rick Bayless, well-known for his PBS series "Mexico: One Plate at a Time," will be bringing his singular style of gourmet fresh Mexican cuisine to Central Florida.

### Homecoming: Florida Kitchen and Southern Shine

## NEW YEAR, NEW ACTS AT LA NOUBA!

Come and live it up with spectacular new acts seen only at *La Nouba*™ by *Cirque du Soleil*®!

For nearly two decades, *La Nouba* by *Cirque du Soleil* at *Disney Springs*™ has welcomed more than 10 million Guests into that place where the extraordinary transforms and overcomes the ordinary.

This year, the creative team at *La Nouba* took a leap into the whimsical by adding hip-hop to the musical mix and accompanying dance performances by world-famous B-boys (breakdancers, for those of us unfamiliar with the lingo).

Mind you, this contemporary, forward-looking approach should come as no surprise. Indeed, as Matthew Sparks, head coach and dance captain for this new act states, “Hip-hop, along with African music, was an early inspiration of the *Cirque* show.”

The B-boys—Bebo, Incredible Josh and Dima Flying-buddha—known individually for their work in dance crews such as Skill

Methodz and films like *Step Up 4*, execute their craft with such agility, power and poise that you’re left wondering why it took so long to make it part of the show!

To complement the exuberant excitement of the B-boys, the graceful performance of *Aerial Bamboo* calls to mind a more traditional circus feat. It brings a fresh, elegant charm to *La Nouba* that is yet another reason to see it happen before your eyes. Possessing both artistic capability and physical beauty, this stunning duo executes their dance and aerial feats to the haunting melody and words of Lara Fabian’s “*Immortelle*.”

Whether you’ve seen *La Nouba* a hundred times or you’ve never experienced the thrill, these two new acts are bound to delight your senses!

For tickets, visit [DisneyWorld.com/lanouba](http://DisneyWorld.com/lanouba) or call 407-WDW-SEAT.
